## CAREER OBJECTIVES

---

I am a passionate advocate and ardent technology enthusiast devoted to developing skills relevant to modern realities and the 21st-century. I am constantly seeking new challenge while remaining greatly committed to personal and professional development. I began self-learning in frontend development track as a starting point with the aim to make an extraordinary transformation in technology.

While self-learning, I got a scholarship at Women Techsters Fellowship to advance my studies. However, I am seeking a place at the Interswitch Graduate Trainee Program as it would be a great expediency to my career change and avenue to work with real life projects that will make a difference in the society.

---
