

WINIFRED IMADE OGBEIWI

Frontend Developer

I embarked on a self-driven journey into frontend development, fueled by my passion for crafting functional and user-friendly web applications. This commitment to learning led me to earn a prestigious scholarship in the Women Techsters Fellowship Program by Tech4Dev. Through this program, I advanced my studies and refined my skills in cutting-edge technologies and industry best practices. My transition into the technology sector showcases my resilience, aptitude for learning, and eagerness to embrace new challenges.

Armed with a strong grasp of frontend development principles and a dedicated approach to delivering top-tier outcomes, I am well-prepared to confront challenges head-on and contribute to the success of dynamic, forward-looking projects. I am enthusiastic about utilizing my expertise and thirst for innovation to fashion outstanding digital experiences and foster a positive impact within the realm of web development.

Experience

The Firma Advisory Law and Consulting (Developer)

August - Present

- Developed a user-friendly web application from concept to execution, enabling users to sign up, post legal job requests, and find lawyers with ease, thereby enhancing access to legal services.
- Implementing robust user authentication and authorization mechanisms to ensure the security and privacy of client and lawyer profiles, fostering trust and data security.
- Designed and managed the database system to efficiently store and retrieve user data, job postings, and lawyer profiles, optimizing performance and scalability, which improved the platform's responsiveness.
- Created algorithms and functionalities to match clients with suitable lawyers based on practice areas, location, and expertise, enhancing the user experience by facilitating relevant connections.
- Integrating real-time chat and communication features within the app, facilitating seamless interactions between clients and lawyers, promoting efficient communication.
- Developed a feedback and rating system to allow users to provide reviews and ratings for lawyers, enhancing transparency and trust within the platform, aiding informed decision-making.

Technologies : ReactJS, TypeScript, ExpressJS Nodejs, MongoDB, Styled-Component

Blazor Technologies(Frontend Developer)

April 2023 - August

- Creating user interfaces (UI) that are visually appealing and easy to use, following design guidelines and wireframes provided by the design team, leading to higher user engagement and a positive user experience.
- Employed Redux for efficient state management, ensuring seamless data flow and synchronization across different parts of the app, achieving consistent and synchronized data across the app, ensuring a seamless and interactive user experience.
- Integrated RESTful APIs and managed data fetching and display, enabling real-time updates and dynamic content presentation.

Skills

Language

Redux, React, Javascript, Tailwind, Bootstrap, CSS, HTML, Typescript, ExpressJS, NodeJS, MongoDB

Others

Tools & Methods: Git, Corel Draw, Canva, Google Workspace, Microsoft Office Suite, SolarWinds, AnyDesk.

Professional: Remote Work, Teamwork Mentoring

Education History

Nigerian Law School

2020-2021

B.L - Second Class Upper

University of Uyo

2015-2020

LL.B - Second Class Lower (3.25CGPA)

Volunteer Activities

Women Techsters Fellowship

- Organized and coordinated a campaign outreach to secondary schools in Akwa-Ibom state on the topic of Tech and the impact of Technological advancement on our society.

The Roothub

- Sensitization on the usefulness and need for technology
- Radio Talk show on the Growing sphere of tech law.

- Optimized API requests and data transfer to achieve a 40% improvement in data retrieval and rendering speed.

Technologies : React, TypeScript, Redux, Styled-Component, Rest API

Oak Pensions Limited (IT Support/ Developer) *November 2022 - April 2023*

- Resolved Hardware and Software Issues: Addressed hardware and software problems promptly, enhancing productivity and minimizing downtime.
- Network Collaboration: Assisted the network team in network setup, configuration, and troubleshooting, ensuring seamless user connectivity.
- System Upgrades and Deployments: Played a role in system upgrades, software deployments, and infrastructure enhancements. Participated in testing and evaluating new technologies and tools.
- Website Maintenance and Enhancement: Managed the company's website, implementing new features, debugging code, and troubleshooting user-reported issues. Ensured optimal website performance and functionality.

Technologies : AnyDesk, Microsoft Office Suite, SolarWinds, System Center Configuration Manager

Circle Community (Frontend Developer Volunteer) *October 2022 - January 2023*

- Collaborate with the team to develop frontend features using React and Tailwind CSS.
- Implementing designs from the design team accurately.
- Build a SASS application with React Vite, Tailwind, and Material UI as part of an all-round team.
- Participate in code review to maintain code quality and adhere to coding standard and guidelines

Technologies : React, Tailwind, Material UI, REST API

The Roothub (Frontend Intern)

February - August 2022

- Collaborating with the team to create and maintain visually appealing and user-friendly web applications. This involves working with HTML, CSS, and JavaScript to implement the design and ensure responsive and cross-browser compatibility.
- Ensuring that web applications are responsive and adaptable to different screen sizes and devices, providing a consistent user experience across platforms.
- Optimizing frontend performance by minimizing page load times, reducing HTTP requests, and employing techniques like lazy loading and code splitting.
- **Technologies :** HTML, CSS, Javascript
